

INTERNATIONAL CONFERENCE ON GLOBAL HEART CONGRESS

Theme: Advancements in the Field of
Cardiology

Dates: September 09-10, 2019

Venue: Osaka, Japan

Invitation:

The Global Heart Congress is the country's greatest, most persuasive cooperation of experts devoted to Cardiology and Public Health. We sincerely welcome you to the Global Heart Congress Conference which is going to be held during this September 09-10, 2019 at Osaka, Japan. We invite everyone who are keen on sharing their insight and explore in the field of Heart and Cardiology. The Scientific program is a ridiculing gathering of courses of action running from keynote sessions encasing some outstanding and provocative speakers to profound and incredibly intuitive talk sessions.

Global Heart Congress-2019 is the exceptional guide to pass on all around eminent colleges in the bureau of cardiovascular field, unite world class cardiologists, researchers and teachers to talk about techniques for malady remediation for heart in this cardiology meeting. This is the congress where you will be having an outstanding experience with the gathering.

This gathering will give a far-reaching update on all medicinal, careful, interventional, clinical, exploratory and electrophysiological subjects in cardiology and you can improve your system universally by cooperating with the different specialists identified with the field of Cardiology over the world.

Regards,
Global Heart Congress
Organizing Committee

Conference Highlights:

- Cardiologists
- Cardiovascular Diseases
- Heart Regeneration
- Cardiac Surgery
- Heart Transplant
- Paediatric Cardiology
- Clinical Cardiology
- Molecular Cardiology
- Artificial Intelligence in Cardiology
- Heart Failure
- Cardiac Rehabilitation
- Heart Stroke
- Cardiovascular pharmacology
- Hypertension
- Cardiovascular Nursing
- Cardiac Devices
- Diagnosis of Heart Diseases
- Case and Reports on cardiology
- Advancements in Cardiology
- Cardiologic medical technology Market

Summary of Global Heart Congress:

Global Experts Meeting on Cardiology provides the premier interdisciplinary forum for cardiologists, scientists, research scholars and medical practitioners, shares the knowledge and discusses the most recent innovations, trends, and practical challenges encountered and the solutions adopted in the fields of Cardiology and other disorders related to Heart.

Aim and Objectives of Heart congress, Osaka, Japan

- To talk about fundamental goals in revelations and improvements of Heart and cardiology.

- Highlight clinical target and significant open doors for progressing latest innovation.
- To draw in and instruct Cardiology Professional, researchers, Professors, postdoctoral learners and understudies from the business stage to nearby University structure everywhere throughout the world.
- To submit joint venture proposition.
- Discuss other two-sided look into projects between Asian Countries, Europe, USA and rest of the world.
- This meeting will go about as a decent stage to discover accomplices for worldwide research joint efforts.

Close to 1,200 delivery scientists, engineers, clinicians and technical professionals from 55 countries are expected to attend for a two-day meeting featuring:

5+ Keynotes
25+ Scientific Sessions
8+ Mini Symposia
5+ Focus Groups
3+ Workshops
30+ Exhibitors
100+ Abstracts

We sincerely hope that Global Experts Meeting on Cardiology will serve as an international platform for meeting researchers, widening professional contacts and build new opportunities.

Importance and Scope of Global Heart Congress

The purpose of this conference is inspiring novel thoughts for cure and study the current market for the upcoming direction of cardiovascular drugs, devices, and diagnostics, with an importance on Cardiology. Lectures will offer a comprehensive state-of-the-art update of the clinical practices of several techniques in the diagnosis, prediction, and management of common cardiovascular diseases.

Millions of people across the world are affected by cardiac disorders – some minor others critical. As per World Health Organization (W.H.O.) study, more than 17.5 million people have CVDs, an estimated 31% of all deaths worldwide and 80% of all CVD deaths are due to heart attacks and strokes. According to market research, the international market for Cardiovascular Disease is probable to grow from \$13.7 billion to \$18.2 billion by 2019.

A major part of research is working on the top Universities on Cardiology across the globe. Many companies are associated with several diagnostic instruments and other therapeutics. Besides this several societies and research labs are also associated in this research field.

Global Experts Meeting on Cardiology in Osaka-Japan:

Why Osaka?

Osaka, which is composed of executives and top management of leading companies, universities and municipalities of Osaka that represent the life science sector in Osaka. To establish Osaka as well as the greater Kansai region as a centre of medical innovation, the Osaka Global Meeting on cardiology is making steady progress with this cooperative framework consisting of industry, academia and researchers throughout Osaka.

In Osaka, an ever-increasing number of understudies are taking up Cardiology Conference as their vocation. The Osaka Ministry of Health expresses that the quantity of registrants for cardiology courses are on the upraise. To urge more individuals to take up cardiology, the legislature is likewise offering grants for understudies.

The Asian market for cardiovascular medical devices was worth more than \$11 billion in 2012, with 12 percent annual growth. By 2021, Asia's share of the global cardiovascular device market is expected to increase from 30 percent to 40 percent.

Target Audience:

- Cardiologists
- Cardiovascular Scientists
- Anesthesiologists
- Cardiology Physicians
- Thoracic and Cardiothoracic Surgeons
- Cardiology Faculties and Professors
- Healthcare Professionals
- Cardiovascular Doctors
- Cardiovascular Researchers
- Nurse Practitioners
- Pediatric Cardiologists
- Electrophysiologists
- Business Entrepreneurs
- Medical Students and Ph.D. Fellows
- Cardiology Hospitals, Associations, and Societies
- Pharmaceutical and Medical Devices Companies

Market Analysis:

The global interventional cardiology market is estimated to reach \$24.96 billion by 2027. The global cardiology market is expected to grow at a CAGR of 8.37% between the years 2019 and 2027, aided by the impressive growth of healthcare budgetary allocation and technological advancements in the medical device industry. Moreover, the rising prevalence of cardiac diseases and a growing geriatric population are the main factors leading the growth of the market.

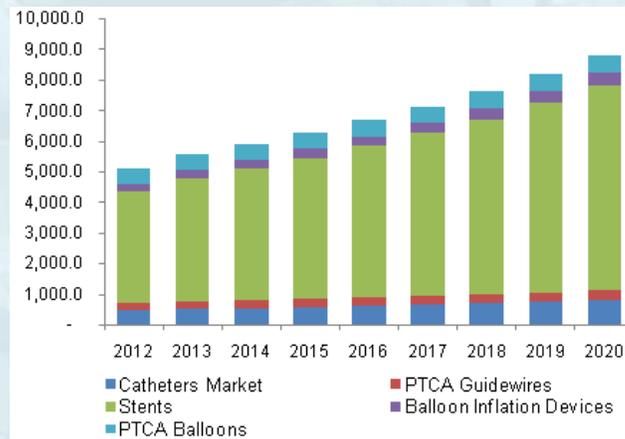

Cardiovascular diseases are the leading cause of death globally and accounted for 17.7 million deaths in 2015, according to the data published by World Health Organization. The growth in geriatric population globally has resulted in increased prevalence of cardiovascular diseases. Some of the key factors contributing to the deteriorating health of individuals and the rise in chronic diseases such as diabetes and cardiovascular diseases are change in eating habits, increased stress, smoking, alcohol consumption, and disturbed sleeping patterns. Which demands for advanced medical devices to treat the growing number of cardiac patients?

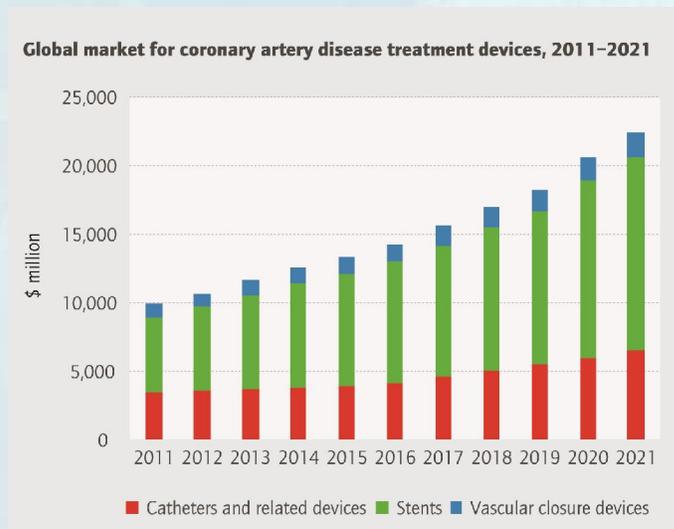

The Medical Devices industry has been witnessing an annual growth rate of approximately 4.5% since 2011. Growth of the cardiology market are directly proportional to the increasing incidences of cardiac disorders and rise in older population. As a result, innovating new products or redesigning existing devices to attain better process efficiency is essential for several conglomerate companies. Therefore, to sustain in the highly competitive market, cardiology is gradually becoming an indispensable solution for the medical device industry.

Some of the leading Medical devices companies

- Medtronic
- St. Jude Medical
- Boston Scientific
- Edwards Lifesciences
- Abbott Laboratories
- Johnson & Johnson
- Getinge
- Terumo
- W. L. Gore & Associates
- Lepu Medical Technology

Cardiology shares a great percentage in the medical market. On a global scale, projections for Coronary Stents market share indicate nearly 47.1% by 2021 leaving the rest of the market to the Cardiac Catheters, PTCA/Coronary guidewires, etc. By technology Optical Coherence Tomography (OCT) is the fastest growing market. 4.8 billion PCI Procedures are expected by 2021 across world. With the existence of technologies such as advanced tools and software which are featured in most of the devices, cardiovascular industry is growing at an increasing rate. International business firms tend to bring in new products and at the same time they try to enhance the existing features in cardiovascular devices.

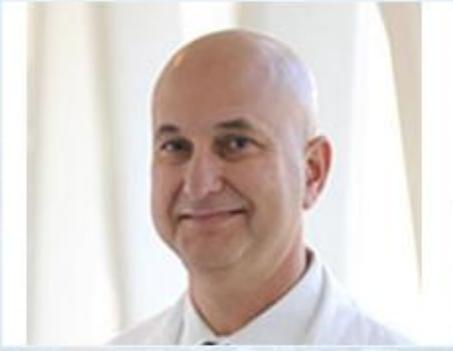

Major Cardiology Associations around the Globe:

- Singapore cardiac society
- Asian Pacific Society of Cardiology
- European Society of cardiology
- European Heart Rhythm Association
- Singapore Hypertension Society
- Heart Failure Society of America
- The Paediatric Cardiac Intensive Care Society
- The Society for Heart Valve Disease
- Asian Society for CardioVascular Surgery
- International Society for Heart Research
- Asian Pacific Society of Hypertension
- European Atherosclerosis Society
- Austrian Cardiological Society
- German Cardiac Society
- Italian Federation of Cardiology
- The Pan-African Society of Cardiology
- Spanish Society of Cardiology.
- Society of Cardiology of Georgia
- The Icelandic Heart Association

Tentative Program:

Day 01 September 09, 2019	Day 02 September 10, 2019
Registrations	
Opening Ceremony	Keynote Forum
Keynote Forum	
Group Photo	Session 3
Session 1	Heart Failure
Cardiologists	Cardiac Devices
Cardiovascular Diseases	Heart Stroke
Heart Transplant	Heart Regeneration
Artificial Intelligence in Cardiology	
	Session 4
Session 2	Cardiac Surgery
Cardiac Rehabilitation	Molecular Cardiology
Diagnosis of Heart Diseases	Cardiovascular pharmacology
Cardiovascular Nursing	Case and Reports on cardiology
Clinical Cardiology	Advancements in Cardiology
Paediatric Cardiology	Cardiologic medical technology Market
Young Researchers Forum	Young Researchers Forum & Poster Presentation
Panel Discussion	Certificate Distribution ceremony
Day Concludes	Panel Discussion
	Day Concludes

Key Note Speakers:

Dr. Yochai Birnbaum
Professor Medicine-Cardiology
USA

Dr. James C. Blankenship
Department of Cardiology
Pennsylvania

Dr. Iyad Azzam
Cardiology/Interventional
Cardiology/Internal Medicine
USA

Dr. Shi Luming
Head of Epidemiology, SCRI
Singapore

Dr. Palash Chandra Banik
Main Specialties: Cardiovascular
Disease, Public Health Bangladesh

Poster Presentation:

- Each poster session author will be provided with a 1 Meter x 1 Meter presenting area and mounting pins. Participants are responsible for mounting their posters during the presentation and in removing them as soon as the session ends. Posters left up past that time will be discarded.
- All illustrations, charts, etc., to be posted should be prepared in advance as materials for these purposes will not be available at the meeting site. Scient will provide a reasonable supply of push pins, but we suggest authors provide their own if possible.
- Avoid overcrowding figures and cramming too many numbers into tables. Legends and titles should accompany all figures, tables, photographs, etc. in order to allow their immediate identification.
- Try not to stand directly in front of your poster, allow other scientists to view the entire poster. Stand to the side. Must display the ID card all the time during conference hours.

For more info, PS: <https://globalcardiologyconferences.com/speaker-poster-guidelines.php>

Young Researchers Forum:

- The Young Researchers Forum offers youthful scientists the likelihood to meet and examine explore themes, share and create thoughts, gain from one another and gain learning from senior analysts.
- Young Researcher Sessions are sorted out at the Global Heart Congress 2019, to give a one of a kind stages to Young Researchers/Investigators for giving most recent research extends an inside and out examination. Scientific Group unconditionally welcomes Young Researchers from Universities/Institutes/Industries to display a short oral introduction amid the discussion. These oral introductions ought to be of 10 minutes term in related logical track pursued by 5 minutes Questions. Accordingly, moderators are urged to give extensive and dynamic talks. Applications will be chosen dependent on past research profitability and future guarantee.

Eligibility:

- The topic of talk must fit into logical sessions of the meeting.
- Every individual member is permitted to submit only a single paper
- None of the creators ought to have senior position or Faculty position.
- Members ought to be underneath the age of 33 years.
- All entries must be in English.
- Open door for young analysts to find out about the examination territories of their friends to build their ability as multidisciplinary specialists.
- Effectively appropriate data and advance the advantages of training and career matters.

Benefits:

- Present your Innovation through oral presentation.
- Find out about Career improvement and the most recent research tools and advances in your field.
- This discussion will give relevant and convenient data to the individuals who Conduct researches and those who use and take advantage from research.
- Build up a foundation for joint effort among young scientists.
- The gathering will give an opportunity to collegial communication with other young researchers and established senior specialists over the globe.
- interact and offer thoughts with both peers and mentors.
- Open door for youth scientists to find out about the examination territories of their friends to expand their ability as multidisciplinary analysts.
- Effectively circulate data and advance the advantages of training and career matters
